ELECTRONICS

LOCKHEED MARTIN

ULTRA

**AUSTAL**  
USA

**BAE SYSTEMS**

**Engineering &  
Construction**

**Manufacturing**

**Oil & Gas**

**Field Service**

# RKS ReTrack™ Suite

## RTM October 2022

### 01

#### Hyperautomation

- AI enablement
- Workflow Automation
- Nonlinear Processing
- NFT Metadata

### 02

#### Key Functions

- Multi-Pathway Processing
- Rules Engine
- Runs in Oracle
- Solution Packs
- External File Extension
- Packaged Scanner Agent

### 03

#### Developer Platform

- Extension to IFS Developer Studio for IFS Technicians and IFS Developers:
  - IFS Cloud™
  - IFS Applications™

### 04

#### DevOps

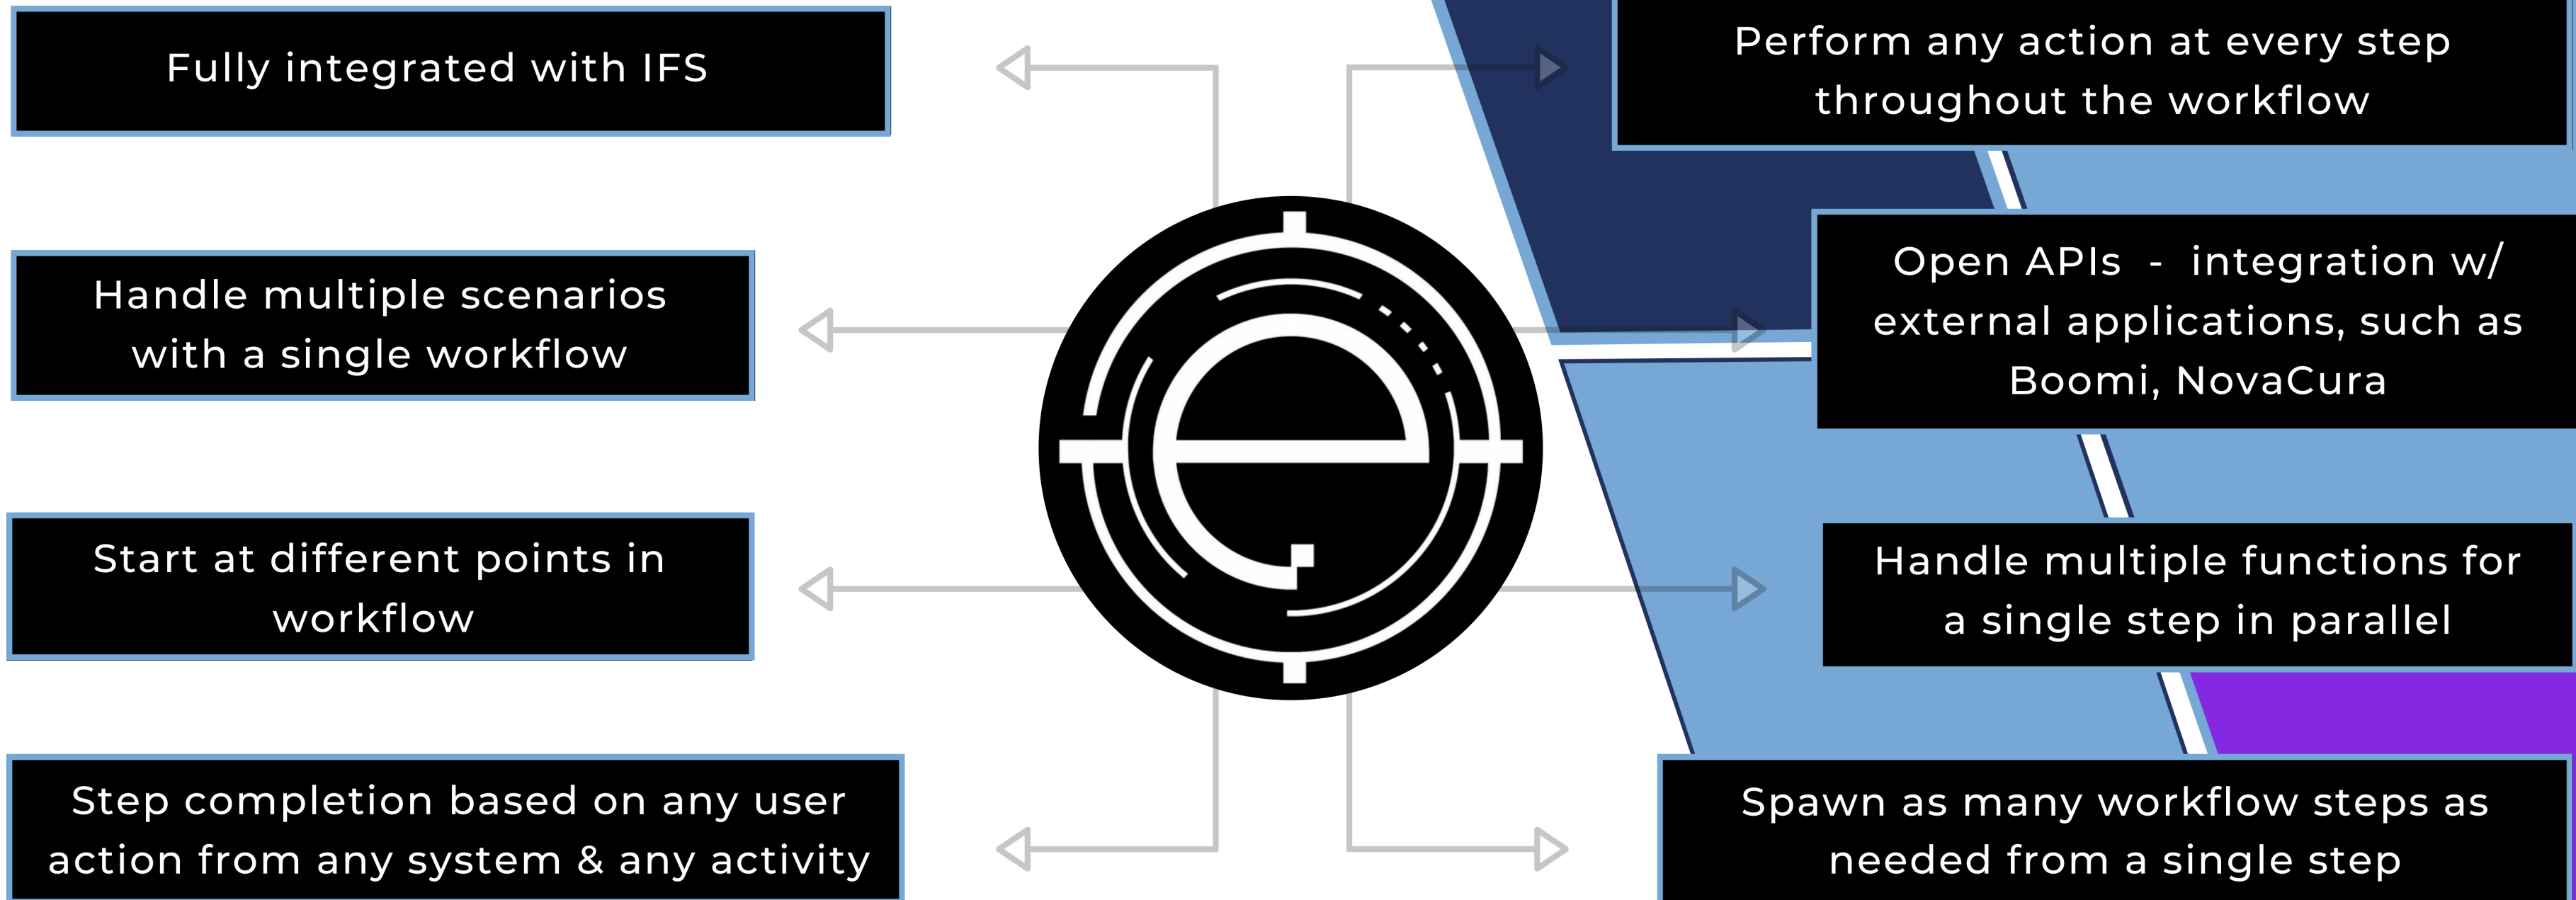

- Deploy Solution Packages
- Continuous Integration / Continuous Deployment
- Automated promotion across environments
- Blockchain Validation

# RKS ReTrack™

## Hyperautomation Features

# RKS Product Enhancement Packages

**PACKAGE NAME**

**DESCRIPTION**

**ADVANCED PROJECT REPORTING**

Extends IFS Projects with additional Earned Value Management, Calculation Methods, Data, and Reports and automated update of ETC

**MASTER SUPPLY SCHEDULE**

A supply chain management tool for same-day schedule optimization by matching immediate supply with demand. It provides the visibility needed to maximize the day's operational plan against supply and demand.

**ADVANCE QUALITY LIMIT**

Extends IFS Quality Management to include more advanced inspection rules and criteria, extends inspection parameters.

**TIME REGISTRATION**

Extends IFS HCM, with configurable business rules for Time Recording. This enables 980 work patterns and work schedules that are not based on a week.

**TYPE SERIAL EFFECTIVITY**

Extends IFS Manufacturing to produce complex serialized assets with multiple revisions concurrently.
